

# *Email Accounts: How do I receive email from my website to my Wireless phone Provider?*

Find your Wireless Device from the available drop down menu on our Rackspace server to set up your email. If you have followed these directions and still cannot access your email, you need to contact your wireless provider to make sure that you have that feature on your phone. These PDFs are provided to you as a courtesy and are not written by us. They are for informational purposes only.
