Adding/Editing Content on your Website: How do I move content on the same page of my website?

Moving your Page Blocks is easy!

1. Hover your mouse on the red UP/Down arrow next to the Page Block you want to move
2. Using your mouse, left click on the arrow to "grab" the area of content
3. Drag the page block up or down to the area you want it to be
3. Let go of your mouse to secure your changes
4. Your page block has now been moved!
