

# *Navigation Pages: How do I change the order of my Web Pages?*

1. In "Edit My Webpage" mode, select Page Order from the Main Menu bar
2. Left click your mouse on the up/down arrow located next to the page you would like to move
3. Drag your page up or down in the order in which you would like it to appear on your Navigation bar
4. Click Done. Your changes will appear automatically
