

Password Protected Pages: How do I add a new secured member to a secured member group I have already created?

1. Click on Page Access on your Dashboard to access your Page Access Manager
2. Select the Add Member Tab
3. Type in your secured members name, email address and secure member username and password
4. Select from the Group drop down, which group you want them added into
5. Submit your secure member to save

The screenshot shows a web-based administration interface for managing website members. At the top, there is a navigation bar with links for DASHBOARD, EDIT WEBSITE, NEWSLETTER, MY ACCOUNT, ADMIN TOOLS, and HELP. The MY ACCOUNT link is highlighted in red. Below the navigation bar, a message indicates the user is 'Logged in as onlinewebbuildersupport.com'. The main content area is titled 'Add member'. It contains several input fields: 'First Name' (with placeholder 'Firstname'), 'Last Name' (with placeholder 'Lastname'), 'Email Address' (with placeholder 'Myname@mysite.com' and a red asterisk indicating it is required), 'Login' (with placeholder 'Username' and a red asterisk), 'Password' (with placeholder 'Password' and a red asterisk), and a 'Group' dropdown menu. The dropdown menu is open, showing four options: 'Select', 'Select', 'My New Group' (which is highlighted in blue), and 'My Second Group'. The 'My New Group' option is currently selected.
