

## *Blog: How do I or turn on, or turn off, the blog comment feature?*

1. From your Dashboard, click on Site Settings.

2. Click on Blog Settings.

3. Select View/Post: This will allow people to view and post comments on your site.

OR

Select View Only: This will allow people to view comments, but not post them.

OR

Select All Off: People will not be able to view or write comments. **Note:** Comments will not be deleted by selecting this option. They will only be hidden from public view.

\*For Maximum Exposure, select the Facebook Connect Comment feature. Make it easy for people to comment about your Blog RIGHT IN THEIR FACEBOOK ACCOUNT.

## *Blog: How do I or turn on, or turn off, the blog comment feature?*

4. Save your changes.
5. Click Publish Now in the upper right corner of the screen
6. Click Publish All Pages.
