Widgets/Affiliates and HTML: How do I add HTML Code to my website?

1. Select Add a New Page Block on the page in which you want your widget/affiliate/HTML to appear
2. Title your Page Block
3. Copy the code from your widget/affilate/HTML that you want to add
4. Return to the Web Builder, Paste or type the code into the white HTML box
5. Save and Publish your Changes
