

Calendar Feature: What are the features of the Calendar and how much does it cost?

Event Calendar

Our built in calendar makes it easy to organize your events.

- Create Event Categories (i.e. If you are a Pilates Studio, each Pilates class (Mat, Equipment, Private, Open Studio) becomes it's own category for easier viewing)

- Easily Add Weekly events that occur over and over.

- Manage your entire calendar all in one place

Post events, sales dates, and deadlines on your calendar and keep your website visitors on track and informed about what is going on!

If you would like to add a calendar to your website, simply submit a support ticket from your dashboard and we will activate one for you.
