

*Domains: Q. Why did I get a renewal notice for my domain name?
I thought as part of my package that you automatically renew my
domain for me.*

If your domain is registered through us, we will bill annually to renew it. Currently (as of 1/30/25), this fee ranges from \$16-\$22 per year, depending on the amount Go Daddy charges us. This is a separate fee from your monthly hosting. If your domain is not registered through Homespun, you will probably receive a bill from the company you bought it from. Please do make sure you pay this fee. If you lose your domain registered through another company because of non-payment, we are unable to help you retrieve ownership of it. HOWEVER, BEWARE there are lots of domain renewal scams that go around via email. Just to be safe, please submit a support ticket from your Web Builder Dashboard, or email us at support@homespunwebsites.com, so that we can verify that your domain does in fact need to be renewed.
