Photos: How do I change the order in which my photos appear in the photo gallery?

Many people want to present their photos in a specific order. You can do this easily in the Photo Editor:

- 1. Select Edit Photos on the Page Block that you would like to re-sort your images in
- 2. The photo editor will now display all of your current images appearing on in your page block under the Current Images queue
- 3. Left click your mouse on the Up/Down arrow located next to the Photo you would like to move
- 4. Drag your photo up or down in the order in which you would like it to appear in your photo gallery
- 5. Click Done
- 6. Publish your Website
