

Site Statistics: How do I review my Site Statistics Tracker?

We offer our own built in site statistic tracker for all of our websites! Once your website is live, your statistics will begin to be tracked. To view your site statistics, simply select the "View Site Statistics" link on your Web Builder Dashboard. Here you can view lists of keywords people use to find you, your daily traffic report, other website who link directly to you, plus much more. We make site tracking easy!

If you would like to know of ways to increase your website traffic, please submit a support ticket to our customer support team and we can give you a full evaluation of your site and help you develop a marketing plan to help improve your search engine presence.
