# Site Statistics: I want to add Google Analytics to my website. How do I do that?

Please visit www.google.com/analytics to create an account. Once your account is created, Google will supply you with HTML code for your site tracker. Follow these steps to add Google Analytics to your account:

1) In Edit your Website mode, go to your home page
2) Select "Search Engine Optimization" from the main menu bar
3) Paste your Google HTML code into the Google Analytics Textbox
4) Save your changes
5) Publish your ENTIRE website
Your analytics will begin to track your site statistics
