Blog: I've added the Blog feature to my website. How do I get started blogging?

Your blog is as easy to update as your website.

Follow these simple steps to set up your blog on your website:

1. From your Dashboard click on Blog Settings to activate your blog
2. Name your Blog. Name it whatever you like, just keep it short. As a rule, no more than 3 words long.
3. Choose how many blog entries you want to show on your Blog Entry Preview page
4. Activate your Comments. To maximize exposure, use the Facebook Connect Comment Feature
5. Save your Settings
6. To learn how to add your first blog entry [click here](#)
