

Design and Custom Graphics: Will my Website really be able to give me the look I want that reflects my personality and style?

Yes! We work hard at giving you many template styles to choose from and are adding new templates every month. We have also added a color chart so that you can have even more background colors to choose from. It is important that you love your website and that the look will reflect you and your business.

If you have specific changes you would like to make to your website, please **submit a support ticket** from your Web Builder Dashboard to our design team. One of our designers will call you to discuss your specifications directly. You would be surprised at some of the easy changes we can make that can personalize your website design, fonts and color styles.
