Domains: How do I update the name servers for my domain with Network Solutions?

Please Note: This process will result in the loss of any e-mails or hosting attached to your Network Solutions account.

- log in to your network solutions account

- In the "My Domain Names" section, click on "Edit DNS"

- Check the boxes next to the appropriate domain, and then click the "Edit DNS" button

- Click the "Move DNS" button

- In the field "Name Server 1:" type "NS.RACKSPACE.COM" (without the quotation marks)

- In the field "Name Server 2:" type "NS2.RACKSPACE.COM" (without the quotation marks)

- Click the "Move DNS" button

- Click the "Save Changes" button

Please Note: Nameserver changes can take up to 48hrs to propagate across the web.
