

Domains: How do I register my own domain name?

You can register online using a number of domain hosting services (Go-Daddy, Yahoo, Network Solutions etc.) located on the Web. But as part of your Premier Membership, we pay to register one domain for you. Just [send us a support ticket](#) and we will register it for you within 24 hours.

We can add additional domains for \$10 a year.

Note: You do not need your domain registered to get started building your website.
