

Navigation Pages: How do I link a navigation page to another website?

1. In Edit Website Mode select Add Page from the Main Menu Bar
2. Title your new web page name as it will appear in your navigation
3. Type in the External Webpage box (i.e. <http://www.externalsite.com>) **OR** paste the URL of the website into this area
4. Add page
5. Publish your ENTIRE website for your changes to appear
